

Animals- How Life Goes On?

The Achiever's Sheet

Think and answer: -

Describe the life cycle of a frog, starting from egg to adult frog.

How do butterflies and moths reproduce, and what are the stages of their life cycle?

Compare how fish and birds lay eggs for their young. How are their parenting methods similar or different?

What are some ways animals protect their eggs or babies until they are ready to take care of themselves?

How do baby mammals get the food they need when they are born?

Describe the process of how bees make baby bees and how the queen bee is involved.

What are some animals that lay eggs, and how do they take care of their eggs once they are laid?
