**Write short answers: -**

What is the difference between climate and weather?

---

---

---

---

Name the two important elements that affect the climate.

---

---

---

---

Name the three elements due to which India has 3 distinct seasons.

---

---

---

---

Name some winter foods?

---

---

---

---

Write a short note on winter season.

---

---

---

---

Write a short note on summer season.

---

---

---

Name the three water bodies which surround southern India.

---

---

---

Name the fruits available in the monsoon season.

---

---

---

Try and recognize some of the weather icons and write what they could mean. One has been done for you. Try and design some more icons.

*Sunny Day*
