

## Our Mineral Resources

### Fill in the blanks: -

1. \_\_\_\_\_ is the most common mineral found on the Earth.
2. \_\_\_\_\_ is used for making bridges and railway engines.
3. Raniganj in \_\_\_\_\_ is known for \_\_\_\_\_ mines.
4. India has oil refineries in \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_.
5. Diamond is the \_\_\_\_\_ mineral on the Earth.
6. Full form of CNG is \_\_\_\_\_.
7. Once used, minerals get \_\_\_\_\_.

### Define the following: -

Minerals- \_\_\_\_\_

Ores- \_\_\_\_\_

Mining- \_\_\_\_\_

Mines- \_\_\_\_\_

Fuel- \_\_\_\_\_

Oilfield- \_\_\_\_\_

Alloy- \_\_\_\_\_

Fill the boxes: -

Metallic Minerals	States where mined	Uses
	Odisha, Chattisgarh _____, _____	_____ _____, _____ _____
Copper		Utensils, _____, _____
	Karnataka, Odisha, _____, _____	
		jewellery
Bauxite		
Non-metallic Minerals	States where mined	Uses
		To make cement
	Madhya Pradesh, Tamil Nadu, _____, _____ _____	
	Assam, Gujarat, _____	Used as fuel

Write short answers: -

What are metallic minerals? Give examples.

---

---

---

---

What are non-metallic minerals. Give examples.

---

---

---

---

Name the non-metallic minerals which are also used as fuels.

---

---

---

---

---

Why we should use the mineral reserves available very carefully?

---

---

---

---

What are Barauni and Haldia known for?

---

---

---

---

What does Jharia and Korba have in common?

---

---

---

---

Find the names of the minerals in the word puzzle
