

Types of Adjectives
Grade 3

Exercise 1: Identify the Type. Read each sentence and identify whether the underlined adjective is of Quality (Q), Quantity (QN), or Number (N):

1. The brave soldier won a medal.
2. Many people watched the parade.
3. She has two brothers.
4. The fresh bread smells wonderful.
5. There are few cookies left.
6. This is my third warning.
7. The clever student solved the puzzle.
8. We need plenty of time.
9. Five birds sat on the wire.
10. The soft pillow helped me sleep.

Exercise 2: Sort the Adjectives. Sort these adjectives into their correct types:

beautiful, seven, much, wise, several, ninth, little, first, smart, many, four, enough, kind, tenth, some

Quality: _____

Quantity: _____

Number: _____

Exercise 3: Fill in the blanks. Choose the correct type of adjective for each sentence (options provided):

Adjectives of Quality: bright, sweet, heavy, soft, clever

Adjectives of Quantity: many, few, some, plenty

Adjectives of Number: three, first, second, five

1. The _____ sunshine woke me up. (Quality)
2. I have _____ homework to complete. (Quantity)
3. This is my _____ time riding a bike. (Number)
4. The _____ puppy learned tricks quickly. (Quality)
5. _____ students were absent today. (Quantity)
6. She ate _____ chocolates. (Number)
7. The _____ music helped me relax. (Quality)
8. We have _____ of time left. (Quantity)
9. The _____ prize went to Sarah. (Number)
10. There are _____ cookies in the jar. (Quantity)

Exercise 4: Create Your Own. Write three sentences using each type of adjective:

1. Three sentences with adjectives of quality

2. Three sentences with adjectives of quantity

3. Three sentences with adjectives of number

Exercise 5: Mix and Match. Write five sentences using all three types of adjectives in each sentence.

Example: Three clever monkeys ate many bananas.

(Number) (Quality) (Quantity)

Tips:

- Encourage children to create their own examples
- Use real-world situations to demonstrate different types of adjectives
- Create interactive games where children can physically sort adjectives into groups
- Use pictures to help students understand the difference between exact numbers and quantities
