

## Passage Comprehension -2

### The School Field Trip

Last Thursday, Mr. Brown's fourth grade class visited the city aquarium. Twenty-five excited students watched colorful fish swim behind glass walls. The highlight of the trip was the dolphin show, where three dolphins jumped, flipped, and played with their trainers. In the touch pool, students felt the rough skin of starfish and the smooth shells of hermit crabs. Before leaving, each student bought a small souvenir from the gift shop. The class agreed it was the best field trip they had ever taken.
