

Passage Comprehension - 5

A Day at the Space Museum

Last weekend, Sarah's family visited the National Space Museum for their annual Space Festival. The enormous building was shaped like a silver spaceship, with giant windows that reached from floor to ceiling. Inside, real spacesuits worn by astronauts floated in glass cases. Sarah was fascinated by the meteorite collection, which included a piece of rock that had traveled millions of miles from Mars. In the planetarium, they watched a spectacular show about black holes and distant galaxies. The most exciting part was the anti-gravity chamber simulator, where visitors could experience what it feels like to be in space. Before leaving, Sarah tried freeze-dried ice cream in the museum café - it tasted strange but interesting! Her father bought her a telescope from the gift shop so she could stargaze at home. That night, Sarah dreamed about becoming an astronaut and exploring the mysteries of space.

Questions:

A. Reading Comprehension:

1. When did Sarah visit the museum?

2. What shape was the museum building?

3. What was Sarah's favorite part of the visit?

4. What did Sarah try in the museum café?

5. What did Sarah's father buy her?

B. Find and Define:

1. Write two words related to space from the passage

2. What does 'annual' mean?

3. Find a compound word in the passage

C. Language Practice:

1. Write antonyms for:

- enormous- _____

- inside- _____

- distant- _____

D. Sentence Formation:

1. Make sentences using:

- fascinated- _____

- spectacular- _____

- mysteries- _____

Answer Key:

A. Comprehension:

1. Last weekend
2. Like a silver spaceship
3. The anti-gravity chamber simulator
4. Freeze-dried ice cream
5. A telescope

B. Find and Define:

1. Spaceship, astronaut, meteorite, galaxy, planet (any two)
2. Happening once every year
3. Spaceship, weekend, spacecraft

C. Language Practice:

1. Enormous × tiny/small

Inside × outside

Distant × near/close
