

**Passage Comprehension- 11**

**Grade 3**

**The Science Fair Project**

Jamie wanted to create something special for the science fair. After reading about plants, she decided to show how they grow in different conditions. She planted bean seeds in three cups: one in the sunlight, one in shade, and one in darkness. Every day for two weeks, Jamie measured the plants and recorded their growth in her notebook. On science fair day, she showed how the plant in sunlight grew tallest and healthiest. Her project won first place!

Answer the questions:

1. What was Jamie's science project about?

---

---

2. How many different conditions did she test?

---

---

3. Which plant grew the best?

---

---

**Vocabulary and Grammar**

4. Put these events in order (use 1st, 2nd, 3rd, etc.):

- Measuring the plants\_\_\_\_\_
- Planting the seeds\_\_\_\_\_
- Winning first place\_\_\_\_\_

- Reading about plants \_\_\_\_\_

5. Find words in the passage that tell us about:

- Time periods- \_\_\_\_\_

- Measurements- \_\_\_\_\_

- Achievement- \_\_\_\_\_

6. Write the comparative degrees of the words below and make sentence with any one degree:

- tall- \_\_\_\_\_

\_\_\_\_\_

- healthy- \_\_\_\_\_

\_\_\_\_\_

- good- \_\_\_\_\_

\_\_\_\_\_

- difficult- \_\_\_\_\_
